POLICE

The Police Department has four Regular Officers, the Chief, and an Officer who works two and one half days on vacant shifts.

A working schedule is shown below so one can readily see how the department functions.

Crime is on the increase which is quite evident by the trouble other departments are having surrounding Derry. By quick action two major crimes in Derry were solved and those involved brought before court and convicted. With the present working schedule the department can handle any emergency immediately.

Signed: Howard W .Compbell

SEWER FUND

The Sewer Fund, including small amounts transferred from sewer rentals surplus, now amounts to $52,949.35, of which $5,584.53 is income earned by these funds, held by the Trustees.

During the year, an obligation was set up by special town meeting against this fund for building a section of sewer to serve the proposed parochial school. The town found this project justified this procedure, but it does not materially reduce the future need for the Sewer Fund to carry out its primary purpose. That is to supply key funds to qualify the town for a grant in the event that grants for public works again become available as a part of a relief public works program.

The town's best interest will best be served by continuing to transfer town surplus funds to cover this new obligation

and also to continue to gradually increase the net amount of the Fund.

HIGHWAYS AND BRIDGES

The Highway Department having enjoyed one of its most highly productive years, offers the following facts as a summary in order that the townspeople may be guided as to the type of program they deem necessary to assure the comforts and pleasures that only good roads can offer.

The construction program, one of initial interest to both townspeople and the department, produced during the year, 7.1 miles of newly surfaced rural roads under Town Road Aid (T.R.A.), a program subsidized by State Highway funds to the extent that they provide approximately seven dollars to each dollar provided by the town. In addition to the above, the Department now has 6.3 miles of graveled road base prepared to further extend surfaced roads in our rural areas. This accomplishment is the net result of having good equipment at its disposal.

The construction of Pinkerton Street Hill also proved of vital interest to both townspeople and the department in as much as it eliminated one of the most hazardous areas in our main highway system. This project was made possible through funds made available under Town Road Aid (T.R. A.) apportionment "B" program where the State subsidized one dollar to each dollar provided by the towns.

The appropriations for sidewalks was confined to replacement only. It may appear on the surface as one of little gain, but one of actual need in order to avoid the complete loss of those we have.

The income of the department in addition to a substantial savings effected on the Pinkerton Street project made it possible to end the fiscal year with an attractive cash balance.

RAYMOND E. THIBEAULT,

Road Agent

REPORT OF THE TRUSTEES

The library has continued to operate in the same manner as in the past. The facilities are available for any organized town groups for meetings. The regular use of library facilities by these groups tend to develop the library as a community center.

The library continues to serve as source of information to those desiring such service. It also serves as a center of wholesome recreational reading. Through the cooperation of the state library volumes desired that are not on the shelves are procured. The library thus is a service center for the citizens.

The service rendered by the staff is efficient and courteous. The fact that the same staff is on duty makes the service more efficient. The trustees, Miss Hall, Mrs. Butnam and Mrs. Johnson urge all to visit and to make greater use of library facilities.

To the Trustees of the Derry Public Library:
The 49th annual report is herewith submitted:

A very decided rise in circulation for 1953 has been noticed in both adult and junior reading. We hope this increased interest may continue during the coming year.

The new 1953 Encyclopedia Britannica is a fine addition to our reference department.

At the beginning of the school year the Principal of the Hood school was interviewed as a means of closer relationship between the school and library. All Junior High teachers met in the library to inspect the material that was available for use in their library assignments, maps, phamphlets, magazines and books were loaned for the year. We feel we have a major part in helping the students with their work.

Our usual educational activities have been carried on during the past year. The regular classes have continued from last year. One new class formed in dress designing. The Arts and Crafts held their annual two day exhibit in June. In August the Garden Club used the reading room for a flower show. Both exhibits were well attended.

Many interesting Arts and Crafts monthly meetings have been held with the following programs, Art in the home, Painting as a hobby, Collecting as a hobby, Making of Christmas cards, History of candlemaking and the December meeting was especially interesting it being a concert by the Bell ringers from Bedford, Mass. This meeting refreshments were served. The monthly meetings will be resumed in March. These meetings are open to all who wish to attend.

Book-Week was a busy time. Exhibits of new books and pictures were arranged around the room. All elementary schools were visited, stories told or read to the children. Children were urged to visit the library, listen to more stories and music on the recording machine. Brownie troops were invited as a group and we had special music and stories for them. As a result of our efforts with the children 126 new names were added to our files during the last two weeks of November. These new cards have been well used. Book jackets, book marks etc. were sent to each school as a reminder of the Book-Week activities.

Many new children's books were added. The lower grades getting the larger share. The books for the smaller children wear out so fast that we have to discard many of them. The coming year we will try and buy more for the 4-5-6 grades.

Our Christmas decorations were greatly admired by our patrons. Mrs. Edith Lang and the Garden Club committee having charge of the arrangements.

HOOD PARK

The summer program at Hood Park offered a balanced schedule of swimming classes, life saving, handicraft, archery, group and individual games.

Three instructors directed the activities of approximately seventy-five children daily, not including morning swim classes.

Due to increased funds, the park remained open one week longer and necessary equipment for activities was purchased; however, in the near future a larger amount should be alloted to repair the main building, replace broken tables and benches, and replace swings that have been lost due to wear.

HISTORY OF LITTLE LEAGUE IN DERRY

Back in February 1953 a group of interested men got together and held a meeting at the Legion Hall which was open to anyone willing to help form a Little League in Derry. There was a movie of Little League and all boys interested in baseball were there to see the movie.

After the movie a meeting was held and the following officers were elected: President, Woodrow Manning; Vice President, Alfred Dick; Secretary, William DeRemer; Treasurer, Rev. Robert Henderson. Managers were Kans Barrieau, Eddie Holm, Roland Pressey, Lowell Hamer.

A lot of planning had to go into forming the league and getting a playing field. The President Woodrow Manning appointed Ralph DesRosier as player agent as his job was to auction the players off as each manager was allowed so many points to use in bidding for players.

The league was able to obtain four sponsors which were: Klev. Bros. Shoe Co., Derry Police Assoc., Eagles' and Lawrence Live Poultry, which the league officers are very grateful to because without them the league wouldn't have been possible. After a great deal of work by a great many interested persons in town, both by their work and lending of their equipment, the field was finally ready for the league to start. The officers of the league are grateful to all those who helped ready the field.

Finally, on May 31, 1953, the league opened with a double header which was preceded by a parade down Broadway to the field by the Youth Marine Drum Corps and all the players in uniform. After a short speech and throwing out of the first ball by Senator Benjamin Adams and raising of the flag, the league was under way with about a thousand people present.

The season continued very successfully with never under two hundred present at any game which were played every Monday and Thursday with a double header every other Sunday.

The league ended the last of August with the Klev. Bros. team of the Red Sox coming out on top, and Mr. Louis Kleven sending his winning team to Boston to see a Red Sox game.

Near the end of the season all the boys in the league had a game from which all proceeds went to the Jimmy Fund.
